ACCESS GUIDE

Ringneck Pheasant

Upland Game Bird Habitat Enhancement and
Pheasant Release Projects

Don Childress

**Montana Fish,
Wildlife & Parks**

Turn in Poachers: 1-800-TIP-MONT (847-6668)

July 20, 2006

Dear Hunter,

Welcome to Montana Department of Fish, Wildlife & Parks Upland Game Bird Habitat Enhancement Program (UGBHE). This program was initiated to enhance habitat to increase upland game bird numbers. The habitat enhancement projects Fish, Wildlife & Parks (FWP) undertake are mainly with private landowners. Some projects, however, have been completed on state and federal lands.

ACCESS

All projects require “reasonable” access for upland game bird hunting. Because of the different sizes of habitat enhancement projects, and the benefits provided to upland birds, the landowner determines the levels of hunter access. The enclosed maps show approximate upland game bird habitat project locations and each is designated by a symbol. Triangles designate habitat enhancement projects and plus signs are pheasant release sites. Each symbol contains a number or letter. By looking up the number or letter in the table for the FWP Region, designated at the top of the map, hunters can determine the name of the landowner for that project. It is the hunters responsibility to contact the landowner for permission to hunt.

LANDOWNER PERMISSION IS REQUIRED BEFORE HUNTING OR ENTERING ANY PRIVATE LAND PROJECT.

BLOCK MANAGEMENT

In addition to the UGBHE program, FWP’s Block Management Program also provides for hunter access to private lands. **For some upland game bird projects, public hunting access is managed through the Block Management Program. Hunters are encouraged to contact the appropriate FWP Regional office to obtain Block Management Program Materials.** A map of the FWP regions, and phone numbers for each office, is provided on the last page of this tabloid.

OTHER ACCESS OPPORTUNITIES

Additional upland game bird hunting access may be available on more than 32 million acres of federal, tribal and state lands within Montana, many of which offer upland game bird hunting opportunities. Information on FWP lands can be obtained from regional offices. A “Directory of Montana Maps,” lists addresses and phone numbers for state and federal agencies and is available at all FWP offices or by calling the FWP Helena Headquarters at 406-444-2535. Most federal agency offices have maps available that display the locations of federal and tribal lands. Hunters must contact the appropriate tribe for information on hunting on tribal lands.

Enjoy the fall season and your Montana hunting experience. Please be respectful to the lands you hunt, report any rule violations you may see (1-800-TIP-MONT) and remember to thank the landowners who grant you access to their property.

Happy hunting!

Sincerely,

M. Jeff Hagener
Director

HUNTERS!

Are YOU an *Endangered Species*?

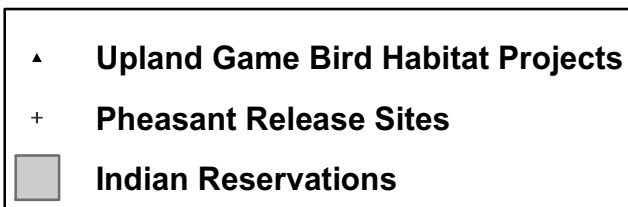

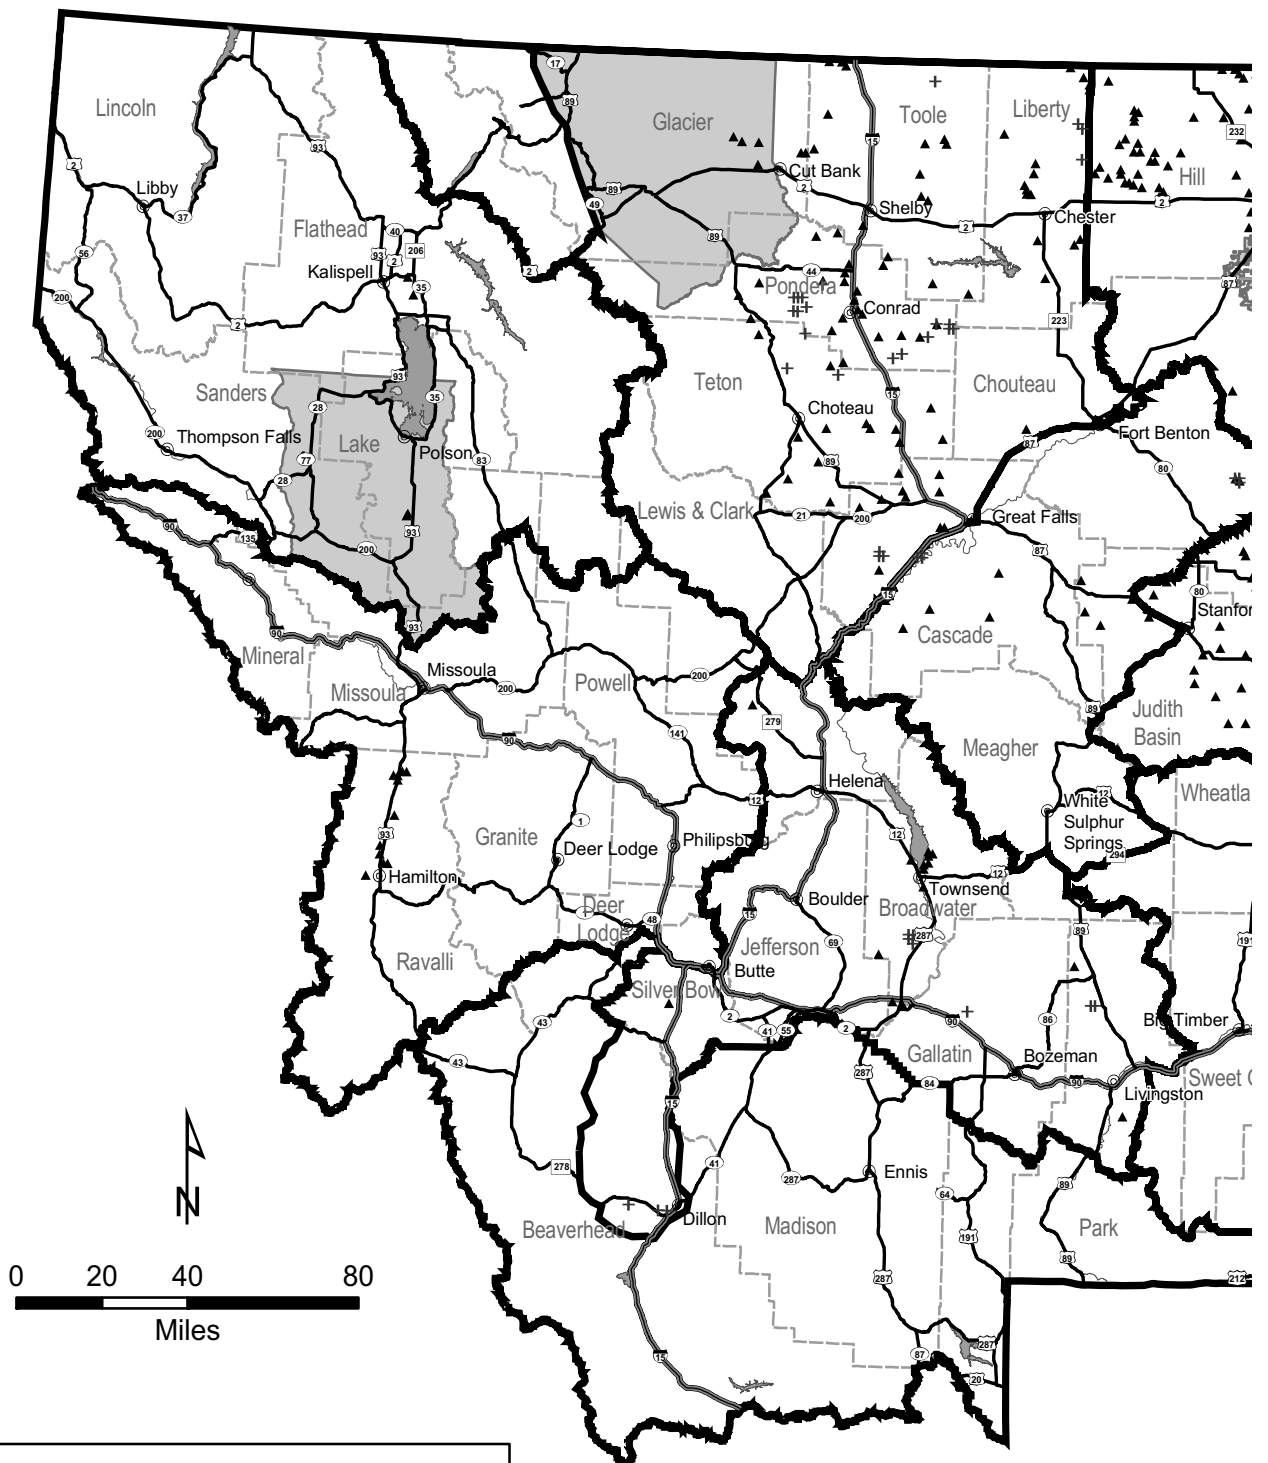

Noxious weeds
threaten
Montana's hunting heritage!!

WHAT CAN YOU DO?

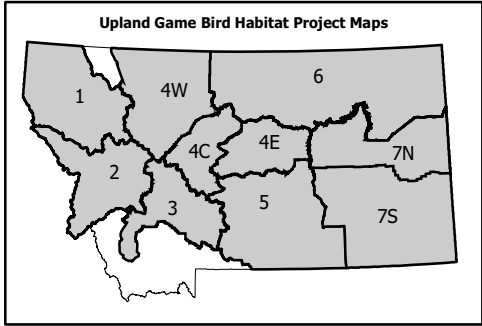

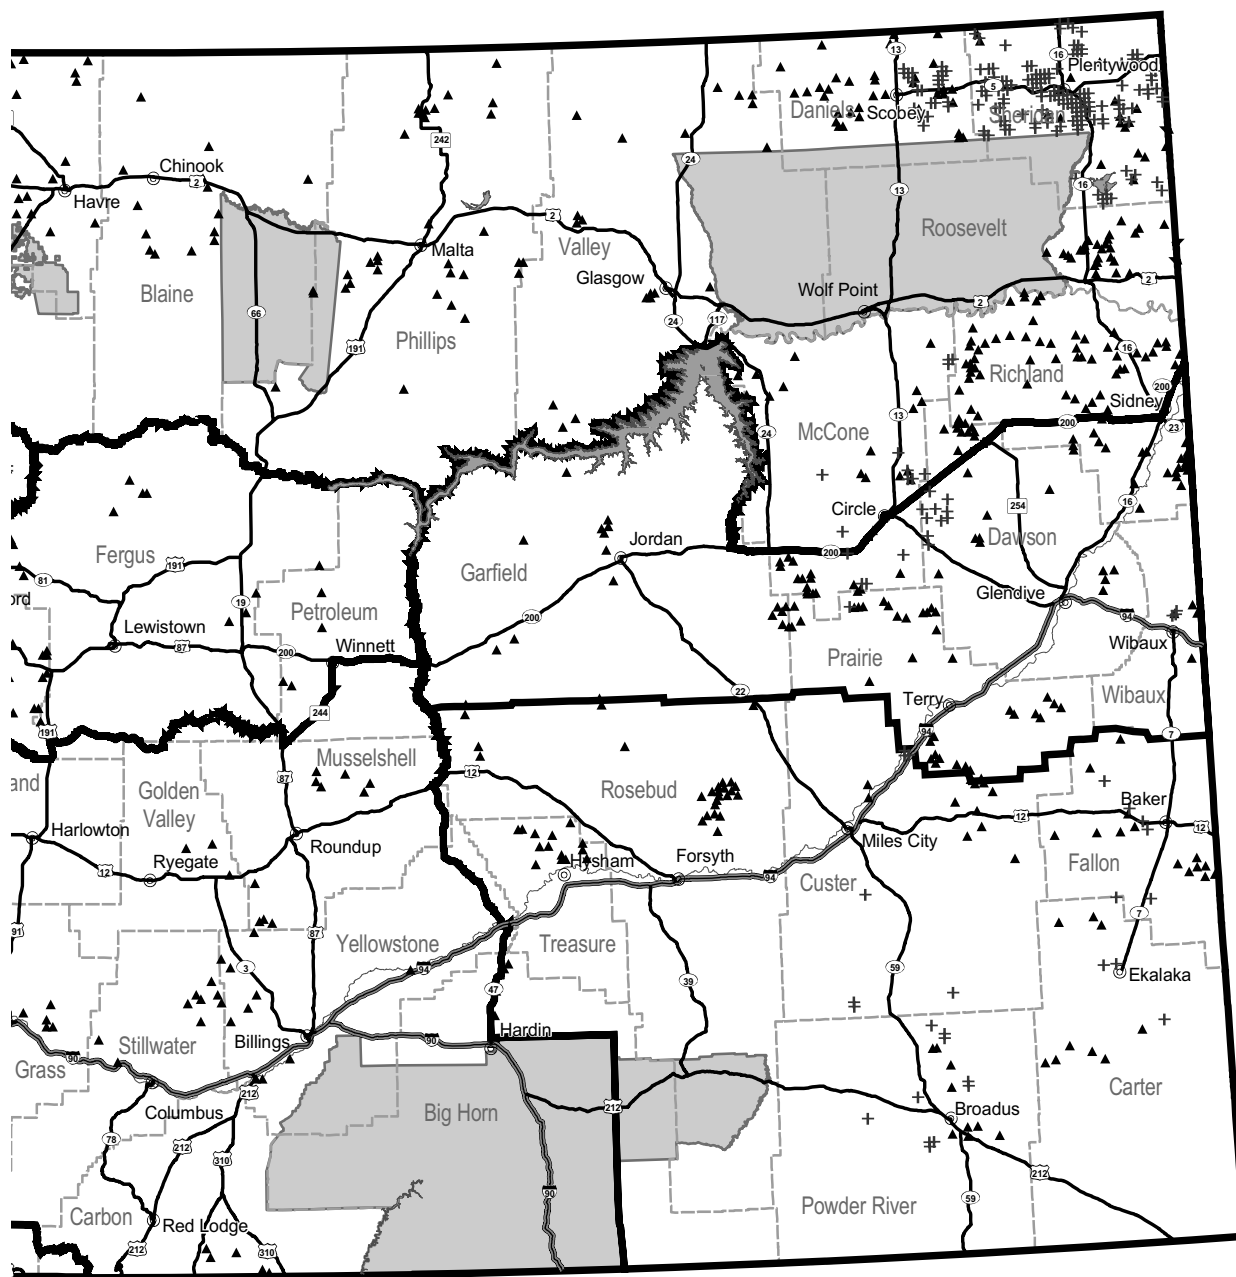

- ◆ Learn to identify noxious weeds;
- ◆ Avoid parking, walking or driving in weeds;
- ◆ Wash vehicles before and after hunting trips;
- ◆ Keep clothing, equipment & animals weed-free.

This map of Daniels County, Georgia, illustrates its geographical features and infrastructure. Major water bodies include the Middle Fork Poplar River, East Fork Poplar River, Poplar River, and West Fork Poplar River. Smaller creeks like Coal Creek, Butte Creek, Peerless Creek, and Police Creek are also shown. The map is marked with numerous elevation points, such as 878, 753, 632, 472, 473, 528, 528, 529, 630, 639, 725, 690, 691, 871, 842, 705, 712, 871, 571, 715, 418, 581, 1003, 925, 1003, 1004, 846, 591, 476, and 878. Infrastructure elements include the Georgia state route 13, the town of Sobeys, and the Fort Peck Indian Reservation to the east. The map also shows the location of the Peerless Creek and Police Creek. The map is oriented with North at the top, indicated by a north arrow in the bottom right corner.

HELP CONTROL NOXIOUS WEEDS IN MONTANA

Montana is being invaded by noxious weeds accidentally brought here from other parts of the country and around the world. The natural enemies of these plants - diseases and insects - that normally keep these weeds under control in their native homeland didn't make the trip over. Due to the lack of natural controls, combined with aggressive growing characteristics, controlling noxious weeds is very difficult once they've gained a foothold. In Montana, noxious weeds are affecting rangelands and in some cases, reducing the quality and quantity of wildlife habitat. Every year the costs associated with controlling weeds in Montana increases for private landowners, towns state and federal agencies.

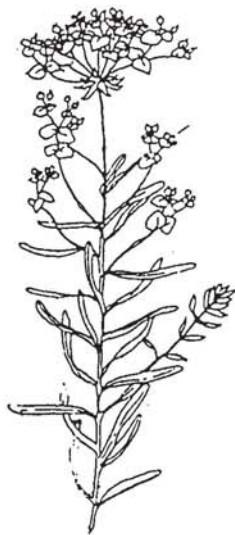

HOW CAN HUNTERS HELP?

- ◀ Learn to identify the types of noxious weeds. Helpful information is available at county weed and extension offices.
- ◀ Thoroughly wash your vehicle, especially the underside, before going afield.
- ◀ Avoid soil disturbance by traveling only on established roads and trails.
- ◀ Hunters using packstock in the hills should use only *certified, weed-seed free hay*. County extension offices can provide a list of local producers.
- ◀ Avoid driving through weed patches and limit your use of weed-infested areas.
- ◀ Notify private, state or federal landowners if you encounter weeds on their property.

NOXIOUS WEEDS ARE EVERYBODY'S PROBLEM.

Spotted Knapweed

Leafy Spurge

Diffuse Knapweed

Yellow Starthistle

NOTES

ETHICAL HUNTERS PROTECT OUR HUNTING HERITAGE.

VIOLATORS DON'T!

If you know of a violation, try to report as much information AS SOON AS POSSIBLE.

Violation date: _____ Violation time: _____ Violation location: _____

What is the violation: _____

Violators name(s): _____

Address(es): _____

Did you witness violation? _____ If not, how do you know about it? _____

What type of vehicle was used? _____ Year? _____ Color? _____

What is the license plate number? _____ What state/providence? _____

Where is violator now? _____ What direction was violator headed? _____
